

CRYO TUNNEL- FP1

- Designed for hygiene and cleanability
- Increase productivity
- Easy to operate
- Push button / PLC hybrid control panel

The Concept

The **CRYO TUNNEL- FP1** is a fully welded, stainless steel, in-line cryogenic tunnel with modular sections that can be easily integrated into any food processing line. The **CRYO TUNNEL-FP1** offers the versatility to efficiently freeze, crust freeze or chill nearly any type of food product using liquid nitrogen or carbon dioxide while ensuring exceptional product quality.

It is ideal for those processors that need increased productivity, excellent hygiene design plus ease of operation and maintenance, with a minimal capital investment and installation cost.

The **CRYO TUNNEL-FP1** is available in 3 freezing zone lengths and 3 belt widths, along with a higher product clearance in order to meet the specific productivity, space and installation requirements of the food processor.

Industries

The **CRYO TUNNEL- FP1** is ideal for freezing, crust freezing and chilling many types of food products in the following sectors:

- Meat
- Poultry
- Fish and Seafood
- Prepared Meals
- Fruits and Vegetables
- Bakery
- Dairy
- Ice Cream

Features

The **CRYO TUNNEL- FP1** is constructed with stainless steel food contact surfaces and a fully welded stainless steel insulated body. The hygienically-designed lifting system ensures that the lid can open completely for better accessibility during cleaning, sanitation and maintenance functions. The inside corners are curved while the base of the freezer has a sloped floor with drain openings for better drainage of the wash water during the cleaning operation.

The **CRYO TUNNEL-FP1** uses proprietary hygienic, stainless steel, high performance fan blades to ensure optimal heat transfer, cryogen efficiency and consistency of freezing.

The cryogen injection system consists of a hygienically-designed manifold which operates on either liquid nitrogen or carbon dioxide and automatically adjusts to meet the changing product heat load requirements using specially-designed software.

The **CRYO TUNNEL-FP1** is simple to operate with its push button/PLC hybrid control panel and delivers excellent performance with respect to quality, cryogen efficiency and productivity throughput.

Benefits

- Flexibility to freeze, crust freeze or chill different types of food products
- Higher product clearance to accommodate larger food products
- Wider range of dwell times

- Increase productivity
- Excellent cryogen efficiency
- Compact design which requires minimal floor space
- Safe and easy to install and operate
- Low maintenance costs
- Fast and easy to clean

Model Range

The CRYO TUNNEL- FP1 range includes the following sizes:

Type	SML	60 x 6	90 x 6	120 x 6
	MED	60 x 9	90 x 9	120 x 9
	LGE	60 x 12	90 x 12	120 x 12

The CRYO TUNNEL- FP1 meets the required standards and regulations for the following locations:

- Europe
- Middle East
- Africa
- Asia
- Pacific
- South America
